Oct 7 & 8

Radio City Music Hall, NYC

Tell Them:
Workers Need \$15 and A UNION!

Describing itself as the “ the biggest business event of the year” THE WORLD BUSINESS FORUM will bring some 5000 chief executive officers, and heads of the fortune 500 multi-billion dollar transnational corporations and banks to Radio City Music Hall in October. This is the invasion of the 1%. They make the decisions that fire workers, bust unions, and keep the wages that ordinary workers take home as low as possible. They want to hold a glitzy star studded event at radio city music hall, to celebrate themselves, and hope that we all forget their war on the working class and the poor.
