Transportation is a right!

RESTORE & EXPAND SERVICE NOW

- ▶ Restore service to those communities and workers who have lost bus routes like Amazon warehouse workers.
- ▶ Don't strand and force seniors to walk long distances.
- ▶ Immediately rollback rates.

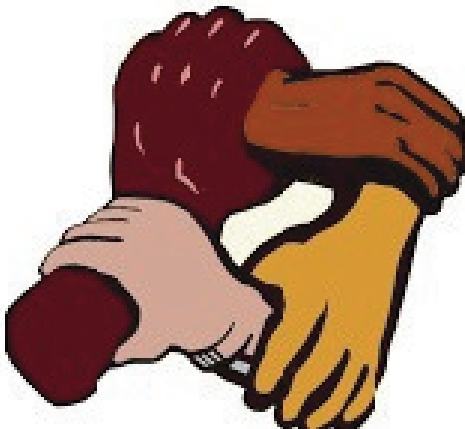

COMMUNITY CONTROL

- ▶ Set up an independent board composed of community, ATU union, and rider representatives to make changes now.
- ▶ Put Baltimore bus and transit decisions in the hands of the people not the State or City governments who have failed to provide decent transportation – fire the MTA officials (better known as Might Take Awhile - MTA).

FREE BUS & TRANSIT SERVICE FOR ALL

- ▶ Immediately provide free passes for all seniors, unemployed and youth.
- ▶ Many other countries and cities in the U.S. have free or affordable bus and transit services.
- ▶ Costly and horrible buses cause workers who are already paid too little to have less money for food, utilities & rent. It's a form of a pay cut and a tax on the poor!
- ▶ It's the major hospitals, banks and work places that already pay low wages that benefit and need workers to get to work; they need to provide free transportation or raise wages.
