3 pm street rally
& 6 pm indoor event

Dec. 9, 2016 marks 35 years since the police tried to execute Mumia on the streets of Philadelphia. He was framed and sentenced to death through the complicity of the FBI, the District Attorney's Office and the courts. International mass protests prevented his execution.

Today, by refusing to provide **life-saving drugs** that can **cure hepatitis C**, the PA Department of Corrections has sentenced Mumia and thousands of other Pennsylvania prisoners suffering from this disease, to death by medical neglect. The health of Mumia and other prisoners is being further compromised by **WATER in PA Prisons**, including SCI Mahanoy where Mumia is housed, that is unsafe to drink or bathe in. The water is black and oily but prisoners are **denied sufficient clean water**.

A recent US Supreme Court decision, rendered on another PA inmate but completely applicable to Mumia, has opened the door for the first time in more than a decade for Mumia's entire trial and conviction to be reconsidered. On this basis Mumia's attorneys have filed a new legal action. If successful, Mumia could have a **new appeals process** and either a **new trial or release**.

We know from our struggle for Mumia's life, that only a powerful grassroots movement will force the courts to take seriously its recent decision and its applicability to Mumia. At the same time, if Mumia's health crisis is not resolved he may not live long enough to win a new day in court.

The same protests and publicity that stopped Mumia's execution in 2011 is are needed more than ever to keep him alive and win his freedom.
