

For Trayvon and all victims of racism, build **PEOPLES POWER ASSEMBLIES!**

Build the assembly movement just like in Egypt, Chile, and around the world.

Let us Demand:

- No to racism, police brutality and racial profiling!
- Jobs, education and healthcare, not jails!
- End mass incarceration and deportations!
- End stop & frisk and the war on youth!

In the coming weeks, the Peoples Power Assembly movement is committed to do everything it can to build the struggle. **We will continue to fight for justice for Trayvon Martin despite this disgusting ruling.** We will never forget Trayvon and in his name we will organize people's power assemblies in every corner of this country. Justice assemblies should take place in squares, communities, union halls, at schools, campuses, and in street corners in every city. We must distribute millions of flyers; hold youth and community speak outs, marches and protests. The murder of Trayvon Martin must be generalized with other cases of atrocities against youth, especially youth of color.

We have no faith in the so-called justice system which is riddled with racism and class bias; a system that jails over 2.3 million mainly people of color, deports another 1.5 million and keeps another 5 million under the repressive thumb of parole and probation status. **This system let Zimmerman walk free to give a green light to all racists that it is ok to shoot and kill a black man in this country.** That is why the PPA says:

STOP THE WAR ON OUR YOUTH!

Build the movement for people's power!
