

Join another rally against
STAPLES

on Thursday, May 1st
as part of a
March Against the 1%

The march will take us to **Staples**, to the Comcast building, the Philadelphia Stock Exchange, and other sites of corporate and government crimes against the people with demands such as stop privatization of postal jobs and services, fund schools not prisons, a \$15 minimum wage, an end to police brutality, an end to gentrification in our communities, an end to student loan debt, fair hiring at construction sites, an end to environmental destruction, and all the other things our communities need to thrive.

COALITION
UNITE TO FIGHT THE 1%

International Workers' Day March
Thursday, May 1st, 4:00 PM • 15th & Market

Let's join together to **FIGHT BACK** against the 1% and return International Workers' Day to its roots as a day that builds power for the working class, including the unemployed, the poor, and the marginalized. We will march in solidarity against all forms of oppression and injustice to demonstrate that our demands are part of a connected class struggle ignored by our elected leaders.
